Name:

Student No: (University of Melbourne)

Contact address(es) and telephone number(s) for the period 1st December to the 18th December:

Address:
.....
.....
.....

Telephone nos (inc mobile):

Facsimile:

Email:

If you have not done your undergraduate studies at the University of Melbourne you must provide the following information:

- (a) A copy of your academic record indicating the date your final results for 2009 will be available.
- (b) The names, postal and email (if possible) addresses and telephone numbers of two academic referees.

Please complete the project preference list on the following page. Provide as much information as possible.

List as many preferences as you wish. If you wish to give two or more projects an equal rating then give them the same preference number. Include in your preference list projects from a number of different supervisors as supervisors will vary in the number of students they will be able to take. **If you are applying for one or more projects in another Department, you should list these as a preference as this will assist in coordination efforts with other Departments.** The number of students a supervisor takes may not necessarily be equivalent to the number of different projects offered by the supervisor

If you have any questions, please contact the department

Telephone: 8344 6246

Facsimile: 8344 5139

This form is to be lodged in Genetics Dept main office by Fri 20 Nov, 2009 or email by this deadline to plegakis@unimelb.edu.au

PLEASE NOTE : you also need to complete a Faculty of Science online application form for admission into honours. The online form is accessible from:

<http://www.ssc.science.unimelb.edu.au/career/further/honours/application>

Please also provide the Genetics dept with a copy of the completed Faculty on-line form.
